Overview

Brand New 2 Bedroom Bungalows | Modern Factory Construction
| Wheelchair Accessible | Solar Panels |

A rare opportunity to purchase a brand new bungalow within an exclusive development of just 30 homes, ideally positioned within walking distance of Wragby town centre and local bus services.

Designed with modern single-level living in mind, these thoughtfully planned two-bedroom bungalows offer an excellent opportunity for those looking to downsize, retire, simplify their lifestyle or enjoy the convenience of a contemporary home without stairs.

The development comprises a carefully planned mix of detached and semi-detached bungalows, each benefiting from its own driveway and attractive, low-maintenance living accommodation.

Internally, the homes provide a welcoming entrance hall leading to a spacious open-plan living/dining room, a fitted kitchen, two well-proportioned bedrooms and a generously designed shower room. The layouts have been specifically considered with accessibility in mind, incorporating larger shower rooms, generous circulation areas and wider door openings, making the homes particularly suitable for those seeking comfortable and accessible single-storey living.

A different approach to new-build construction

These homes have been constructed using a modern, factory-manufactured construction system, rather than conventional brick-and-block construction. The system incorporates a concrete outer skin and insulated inner skin, manufactured within a controlled factory environment before being transported to site for erection.

This method of construction provides a number of benefits, including high levels of insulation, enhanced quality control and faster construction times. The manufacturer has developed and patented the system, drawing on many years of experience in residential construction.

Designed for modern living

Each home benefits from:

- Brand new two-bedroom bungalow accommodation
- Detached and semi-detached homes available
